INDEPENDENT AUDITOR'S REPORT

To the Shareholder of IFB AGRO MARINE (FZE)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of IFB AGRO MARINE (FZE) (the "Establishment"), which comprise the statement of financial position as at 31 March 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Establishment as at 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Establishment in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates ('U.A.E'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(c) to the financial statements, which states that the Establishment incurred a loss of AED 312,569 for the year ended 31 March 2021 and at that date, the Establishment's losses aggregated to AED 3,612,587, its current liabilities exceeded its current assets by AED 853,646 and it had a net deficit of AED 912,587 in shareholder's equity funds. Further, the uncertainty due to Covid-19 outbreak with regard to the future impact on the business performance has been considered as part of the management's assessment of the Company's ability to continue as a going concern and the Company's operations may have been affected by this outbreak. These events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the Establishment's ability to continue as a going concern. However, the shareholder has agreed to continue with the operations of the Establishment and to provide continuing financial support to enable the Establishment to discharge its liabilities as and when they fall due. Accordingly, these financial statements have been prepared on a going concern basis. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT

(continued)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs, and for their compliance with the provisions of Implementing procedures issued by Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Establishment's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Establishment or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Establishment's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Establishment's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

continued ...

INDEPENDENT AUDITOR'S REPORT

(continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Establishment's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Establishment to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and
 events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We confirm that the above financial statements comply with the Implementing Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995, except for the matter stated in Note 23 to the financial statements with respect to maintaining minimum net assets as required by the said regulations. We further confirm that we have obtained all the information and explanations necessary for our audit and proper books of account and other records have been maintained in accordance with the said regulation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. LEGAL STATUS AND BUSINESS ACTIVITY

a) IFB AGRO MARINE (FZE) (the "Establishment") - trade license No.18085 is registered as a free zone establishment with limited liability on 20 April 2017 in Sharjah Airport International Free Zone, Sharjah, UAE, pursuant to Law No. 2 of 1995. The registered address is P.O. Box 124734, SAIF office Q1-08-101/C, Sharjah, UAE.

The Establishment has also obtained a licence from Department of Economic Development for representative office in the name of "IFB Agro Marine – Dubai Branch – Representative Office" in the emirate of Dubai. Accordingly, the assets, liabilities and operating results of the representative office are included in these financial statements.

- b) The principal activity of the Establishment as per trade licence is general trading. The Establishment's main activity during the year was trading in frozen foods.
- c) The Establishment is wholly owned subsidiary of IFB Agro Industries Limited, a company incorporated in India which is also considered as ultimate parent company by the Directors of the Establishment.

2. BASIS OF PREPARATION

a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards issued or adopted by the International Accounting Standards Board (IASB) and which are effective for accounting periods beginning 1 January 2020, and the requirements of Sharjah Airport International Free Zone Authority Implementing Regulations pursuant to Law No.2 of 1995.

b) Basis of measurement

The financial statements are prepared using historical cost. Historical cost is based on the fair value of the consideration given to acquire the asset or cash or cash equivalents expected to be paid to satisfy the liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

c) Going concern

The financial statements are prepared on a going concern basis.

When preparing the financial statements, management makes an assessment of the Establishment's ability to continue as a going concern. Financial statements are prepared on a going concern basis unless management either intends to liquidate the Establishment or to cease operations, or has no realistic alternative but to do so.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Establishment has incurred a loss of AED 312,569 for the year ended 31 March 2021 and at that date, the Establishment's losses aggregated to AED 3,612,587, its current liabilities exceeded its current assets by AED 853,646 and it had a net deficit of AED 912,587 in shareholder's equity funds. Further, the uncertainty due to Covid-19 outbreak may adversely affect the financial position, results of operations and cash flows of the Establishment. These events or conditions, indicate that a material uncertainty exists that may cast a significant doubt on the Establishment's ability to continue as a going concern.

However, the management believes that since the Establishment had commenced operation only in the year 2017, the operations of the Establishment will take some time to stabilize and start generating profits. Due to the ongoing pandemic, this may take longer than usual estimated timelines. The Establishment has earned operating profits, however, due to high overheads there is net loss. The management firmly believes that in coming years the Establishment will enhance its operations by adding new customers and new geographies in its portfolio which will help in recovering the high overheads and in turn become profitable. Further, the shareholder has agreed to provide continuing financial support to enable the Establishment to discharge its liabilities as and when they fall due.

Accordingly, these financial statements have been prepared on a going concern basis.

d) Adoption of new International Financial Reporting Standards

Standards, amendments, improvements and interpretations effective for the current period. The following amendments, improvements and interpretations which became effective 1 January 2020 or after, did not have any significant impact on the Establishment's financial statements:

- Amendments to IFRS 3 Definition of a Business
- · Amendments to IAS 1 and IAS 8 Definition of Material
- Amendments to IFRS 9, IAS 39 and IFRS 7 Interest Rate Benchmark Reform
- Revised Conceptual Framework for Financial Reporting

New and revised IFRSs in issue but not yet effective and not early adopted

The following amendments, improvements and interpretations that are assessed by management as likely to have an impact on the financial statements, have been issued by the IASB prior to the date the financial statements were authorised for issue, but have not been applied in these financial statements as their effective dates of adoption are for future accounting periods.

- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Phase 2 (1 January 2021)
- Amendments to IAS 16 Property, Plant and Equipment Proceeds before Intended Use (1 January 2022)
- Amendments to IAS 37 Onerous Contracts Cost of Fulfilling a Contract (1 January 2022)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

- Annual Improvements to IFRS Standards 2018-2020 (1 January 2022)
 - IFRS 9 Financial Instruments
 - IFRS 16 Leases
- Amendments to IAS 1 Classification of Liabilities as Current or Non-current (1 January 2023)

e) Functional and presentation currency

The Establishment's functional currency is US Dollars since significant portion of its sales and purchases are denominated and settled in that currency. However, the financial statements are presented in UAE Dirhams ("AED") being the currency of country of domicile. Amounts in US Dollars are translated to UAE Dirhams using the exchange rate of 1 US\$ = AED 3.6725 while recoding in the books of account the transactions entered by the Establishment in US Dollars.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted, and which have been consistently applied, are as follows:

a) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value of furniture, fixtures and office equipment, where material, is depreciated from the date the asset is available for use until it is derecognised, using the written down value (WDV) method over the estimated useful lives of 6-7 years.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate only when it is probable that future economic benefits associated with the expenditure will flow to the Establishment and such cost can be measured reliably. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the Establishment recognises such parts as individual assets with specific useful lives and depreciates them accordingly. The carrying amount of replaced parts is derecognised.

All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are recognised within 'other operating income/expenses' in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

b) Staff end-of-service benefits

Provision is made for staff end-of-service benefits payable to non-UAE national employees at the reporting date in accordance with the local labour laws.

c) Revenue recognition

The principal activity of the Establishment as per trade license is general trading. The Establishment's main activity during the year was trading in frozen foods.

Revenue from contracts with customers is recognised when the control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Establishment expects to be entitled in exchange for those goods or services.

The Establishment recognises revenue from contracts with customers based on a five-step model as set out in IFRS 15:

- Identify the contracts with customers: A contract is defined as an agreement between two
 or more parties that creates enforceable rights and obligations and sets out the criteria for
 every contract that must be met.
- Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Determine the transaction price: The transaction price is the amount of consideration to which the Establishment expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Establishment will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Establishment expects to be entitled in exchange for satisfying each performance obligation.
- 5. Recognise revenue when (or as) the Establishment satisfies a performance obligation at a point in time or over time.

The Establishment satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Establishment's performance as the Establishment performs; or
- The Establishment's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Establishment's performance does not create an asset with an alternative use to the Establishment and the Establishment has an enforceable right to payment for performance completed to date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Establishment is required to assess each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method of recognising revenue.

Sale of goods

The Establishment has concluded that revenue from sale of goods should be recognised at a point in time when the control of the asset is transferred to the customer, generally on delivery of the goods.

d) Leases

The Establishment leases office premise and staff accomodation. Rental contracts are typically made for fixed period of 1 year but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease arrangements do not impose any covenants, however leased assets may not be used as security for borrowing purposes.

Short-term leases

The Establishment applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

e) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank current account.

f) Other financial assets

Other financial assets measured at amortised cost comprise margin deposits under encumbrance and/or with a maturity date of more than three months from the date of deposit.

g) Foreign currency transactions

Transactions in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling on the date of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling at the reporting date.

Gains or losses resulting from foreign currency transactions are taken to profit or loss.

h) Provisions

A provision is recognised when the Establishment has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, it's carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

i) Value added tax

As per the Federal Decree-Law No. (08) of 2017, Value Added Tax (VAT), is charged at 5% standard rate or 0% (as the case may be) on every taxable supply and deemed supply made by the taxable person. The Establishment is required to file its VAT returns and compute the payable tax (which is output tax less input tax) for the allotted tax periods and deposit the same within the prescribed due dates of filing VAT return and tax payment.

j) Current versus non-current classification

The Establishment presents assets and liabilities in the statement of financial position based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period. or,
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period. or,
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Establishment classifies all other liabilities as non-current.

k) Financial instruments

Classification

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income ("FVTOCI") – debt investment; FVTOCI – equity investment; or fair value through profit or loss ("FVTPL").

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The classification of financial assets at initial recognition depends on the financial assets' contractual cash flow characteristics and the Establishment's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or FVTOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrumental level.

The Establishment's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cashflows, selling the financial assets, or both.

Financial liabilities are classified as financial liabilities at FVTPL or at amortised cost. The Establishment determines the classification of its financial liabilities at initial recognition.

Recognition

Financial assets and financial liabilities are recognised when, and only when, the Establishment becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognised on trade-date, the date on which the Establishment commits to purchase or sell the asset.

Derecognition

Financial assets are de-recognised when, and only when,

- The contractual rights to receive cash flows expire or
- The Establishment has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
 - (a) the Establishment has transferred substantially all the risks and rewards of the asset,
 - (b) the Establishment has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities are de-recognised when, and only when, they are extinguished i.e. when obligation specified in the contract is discharged, cancelled or expired.

Measurement

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. Transactions costs of financial assets carried at FVTPL are expensed in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The following accounting policies apply to the subsequent measurement of financial assets and liabilities.

Financial assets at amortised cost

Financial assets that meet the following conditions are subsequently measured at amortised cost less impairment loss and deferred income, if any (except for those assets that are designated as at fair value through other comprehensive income on initial recognition) using the effective interest method.

- 1. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- 2. the contractual terms of the instrument give rise to cash flows on specified dates that are solely payments of principal and profit on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The financial assets at amortised cost comprise of trade and other receivables, other financial assets and cash and cash equivalents.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at amortised cost comprise of short-term borrowings and trade and other payables.

Impairment of financial assets

The Establishment recognises an allowance for expected credit losses (ECLs) for investment in all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Establishment expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Loss allowances are measured on either of the following basis:

- 12-month ECLs: ECLs that result from possible default events within 12 months after the reporting date; and
- Lifetime ECLs: ECLs that result from all possible default events over the expected life of a financial instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Establishment measures the loss allowance at an amount equal to lifetime ECLs, except for the following which are measured as 12-month ECLs:

 Bank balances and other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Establishment has elected to measure loss allowances for trade receivables at an amount equal to lifetime ECLs. The Establishment applies a simplified approach in calculating expected credit losses. The Establishment does not track changes in credit risk, but instead recognises a loss allowance based on lifetime expected credit losses at each reporting date. The Establishment has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Establishment considers reasonable and supportive information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Establishment's historical experience and informed credit assessment and including forward looking information.

The Establishment assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Establishment considers a financial asset to be in default when:

- The customer is unlikely to pay its credit obligations to the Establishment in full, without recourse by the Establishment to actions such as realising security (if any is held); or
- The financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Establishment is exposed to credit risk.

At each reporting date, the Establishment assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the asset.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Equity

Equity instruments issued by the Establishment are recorded at the value of proceeds received/receivable towards interest in share capital of the Establishment.

i) Fair value measurement

The Establishment measures financial instruments, such as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. The Establishment also discloses the fair value of financial instruments measured at amortised cost.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interests.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

4. SIGNIFICANT JUDGMENTS EMPLOYED IN APPLYING ACCOUNTING POLICIES

The significant judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

Classification of financial assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Establishment's business model for managing them.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Impairment

At each reporting date, management conducts an assessment of property, plant and equipment to determine whether there are any indications that they may be impaired. In the absence of such indications, no further action is taken. If such indications do exist, an analysis of each asset is undertaken to determine its net recoverable amount and, if this is below its carrying amount, a provision is made.

The Establishment applies expected credit loss (ECL) model to measure loss allowance in case of financial assets on the basis of 12-month ECLs or Lifetime ECLs depending on credit risk characteristics and how changes in economic factors affect ECLs, which are determined on a probability-weighted basis.

Recognition of revenue and allocation of transaction price

Identification of performance obligations

The Establishment determined that the sale of goods are provided as a single component to customers and accordingly it becomes single performance obligation in respect of the goods being sold.

Determine timing of satisfaction of performance obligation

The Establishment concluded that the revenue from sales of goods is to be recognised at a point in time when the control of the goods has transferred to the customers. Payment of the transaction price is due immediately at the point the customer purchases the goods.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

Key assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are as follows:

Carrying values of property, plant and equipment

Residual values are assumed to be zero unless a reliable estimate of the current value can be obtained for similar assets of ages and conditions that are reasonably expected to exist at the end of the assets' estimated useful lives.

Impairment

Assessments of net recoverable amounts of property, plant and equipment are based on assumptions regarding future cash flows expected to be received from the related assets.

Impairment of financial assets

The loss allowance for financial assets are based on assumptions about the risk of default and expected loss rates. The management uses judgement in making these assumptions and selecting the inputs to the impairment calculations based on the past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in Note 3 (k).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Staff end-of-service benefits

The Establishment computes the provision for the liability to staff end-of-service benefits stated at AED 106,680 (previous year AED 80,010), assuming that all employees were to leave as of the reporting date. The management is of the opinion that no significant difference would have arisen had the liability been calculated on an actuarial basis as salary inflation and discount rates are likely to have approximately equal and opposite effects.

Impact of Covid-19

Since the Covid-19 outbreak is evolving rapidly, the Establishment continues to assess the impact on its operations on a regular basis. The management believes that there exists a material uncertainty in respect of expected duration and its potential impact on the overall economy including the operations of the Establishment. However, the management concluded that there is no significant impact of Covid-19 on its operations and cash flows due to nature of the Establishment's business activities.

6. PROPERTY, PLANT AND EQUIPMENT

Advance received from customers		100,399
Accruals for staff benefits	42,000	-
	42,000	100,399

16. RELATED PARTIES

The Establishment enters into transactions with entities that fall within the definition of a related party as contained in International Accounting Standard 24. The management considers such transactions to be in the normal course of business and are at prices determined by the management.

Related parties comprise the shareholder, companies under common ownership and/or common management control and key managerial personnel.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

At the reporting date, significant balances with related parties were as follows:

	Shareholder	Key management personnel	Companies under common ownership and/ common management control	Total 2021	Total 2020
		AED	AED	AED	AED
Included in accruals	**	19,050		19,050	
		(3000)			0.000

Included in other expenses	**	**	***	
	***	15,000		15,000
Commission income (Note 19)	**	264,420	264,420	
	***	132,210		132,210

The Establishment also receives funds from related parties as and when required as working capital facilities, free of interest.

17. MANAGEMENT OF CAPITAL

The Establishment's objectives when managing capital are to ensure that the Establishment continues as a going concern and to provide the shareholder with a rate of return on their investment commensurate with the level of risk assumed.

Capital comprises equity funds as presented in the statement of financial position. Debt comprises total amount owing to third parties, net of cash and cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Establishment is subject to externally imposed capital requirements as per Implementation Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995 (refer note 23).

Funds generated from internal accruals are retained in the business, according to the business requirements and to maintain capital at desired levels.

18. REVENUE

The Establishment generates revenue from the transfer of goods and services at a point in time. The disaggregated revenue from contracts with customers by geographical segments, type of goods and timing of revenue recognition is presented below. The management believes that this best depicts the nature, amount, timing and uncertainty of the Establishment's revenue and cash flows.

		2021	2020
		AED	AED

23. SHARJAH AIRPORT FREE ZONE AUTHORITY REGULATIONS

As the net assets of the Establishment are below 75 percent of its share capital in accordance with the Implementation Procedure issued by the Sharjah Airport Free Zone Authority pursuant to Law No. 2 of 1995, the directors are required to communicate to the Sharjah Airport Free Zone Authority and increase the net assets to meet the requirements of the law.

24. FINANCIAL INSTRUMENTS

The net carrying amounts and fair values as at the reporting date of financial assets and financial liabilities are as follows:

	At amortised cost	
	2021	2020
	AED	AED
Financial assets		
Trade and other receivables	972,443	570,725
Other financial assets	50,000	50,000
Cash and cash equivalents	38,183	23,197
	1,060,626	643,922
Financial liabilities		
Short-term borrowings	1,214,685	208,264
Trade and other payables	708,288	957,403
	1,922,973	1,165,667

Management of risk

The management conducts and operates the business in a prudent manner, taking into account the significant risks to which the business is or could be exposed.

The primary risks to which the business is exposed, which are unchanged from the previous year, comprise credit risks, liquidity risks and market risks (including currency risks, interest rate risks).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Credit risk is managed by assessing the creditworthiness of potential customers and the potential for exposure to the market in which they operate, combined with regular monitoring and follow-up.

Management continuously monitors its cash flows to determine its cash requirements and makes comparison with its funded and un-funded facilities with banks in order to manage exposure to liquidity risk.

The Establishment buys and sells goods and services in foreign currencies. Exposure in foreign currencies is minimised where possible by denominating such transactions in US Dollars to which the UAE Dirham is pegged.

Borrowing facilities are regularly reviewed to ensure that the Establishment obtains the best available pricing, terms and conditions on its borrowings.

Exposures to the aforementioned risks are detailed below:

Credit risk

Financial assets that potentially expose the Establishment to concentrations of credit risk comprise principally cash and cash equivalents, trade and other receivables and other financial assets.

The Establishment's current account and margin deposit is placed with high credit quality financial institutions.

The management assesses the credit risk arising from trade and other receivables taking into account their financial position, past experience and other factors. Based on the assessment individual risk limits are determined.

At the reporting date, the Establishment's maximum exposure to credit risk from such receivables situated outside the UAE is as follows:

2021	2020
AED	AED
191,301	-
174,946	74,543
	AED 191,301

At the reporting date 90% of trade receivables were due from three customers (previous year 96% of trade receivables was due from two customers). Trade receivables mainly represent amounts receivable from customers engaged in trading business of frozen food items.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Establishment uses an allowance matrix to measure the expected credit losses of trade receivables, which comprise a number of balances. Loss rates are calculated using a 'flow rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Flow rates are calculated separately for exposures in different segments based on the following common credit risk characteristics – geographic region, age of customer relationship and type of product purchased.

Based on the assessment the management believes that no provision for expected credit losses needs to be accounted in the books of account for the year ended 31 March 2021.

Currency risk

There are no significant currency risks as substantially all financial assets and financial liabilities are denominated in UAE Dirhams or US Dollars to which the Dirham is fixed.

Interest rate risk

Short-term borrowings are subject to floating interest rates at levels generally obtained in the UAE or are linked to LIBOR and are therefore exposed to cash flow interest rate risk.

At the reporting date, if interest rates had been 1% higher or lower, interest expense on variable rate debt would have been AED 12,147 higher or lower (previous year AED 2,083) resulting in equity being higher or lower by AED 12,147 (previous year AED 2,083).

Fair values

The management assesses the fair values of all its financial assets and financial liabilities at each reporting date.

The fair values of cash and cash equivalents, other financial assets, trade and other receivables, short-term bank borrowings and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

		2021	2020
		AED	AED
25 .	CONTINGENT LIABILITIES		
	Bankers' letters of guarantee	50,000	50,000

26. COMPARATIVE INFORMATION

Previous year's figures have been regrouped/reclassified wherever necessary to make them comparable to those of the current period.
